

# The American Chemistry Council and Texas Chemical Council

Invite you to an industry forum discussing the lessons learned  
from Hurricane Harvey

As one of the largest industries and economic drivers in Texas with significant operations in Houston and throughout the Gulf Coast region, the chemical industry, our facilities and thousands of our employees found themselves directly in the path of Hurricane Harvey and its aftermath.

Please join leaders from the Texas chemical industry and local, state and federal government officials as we discuss how lessons from Hurricane Harvey can help enhance Gulf Coast resiliency, planning and response to future extreme weather events.
